Response to Amendment

The following is in response to the amendment filed on October 5, 2007.

Allowable Subject Matter

Claims 1, 3-16, and 18-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 3-8, 15, 16, and 18-30 are allowed, because the prior art does not disclose or suggest a method of reducing fluorescence in recycled pulp by adding polymeric material and adding chlorine dioxide, and then adjusting the oxidation reduction potential of the mixture to a value less than or equal to zero after chlorine dioxide addition.

Claims 9-14 are allowed, because the prior art does not disclose or suggest a method of reducing fluorescence in recycled pulp by adding a bleaching agent, then adding chlorine dioxide, and then adjusting the oxidation reduction potential of the mixture to a value less than or equal to zero after chlorine dioxide addition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Applicant's arguments filed October 5, 2007 have been considered. Applicant has overcome the rejection under 35 U.S.C. 103(a) over Takahashi (JP 05-033279) in view of Renard et al (US 4,579,628), set forth previously.
